Single – Wire Adjustable Wristband DJA01

This maroon colored wrist band and coil cord set features a 360 degree conductive contact around the wrist, providing maximum skin contact. The band is standard with 7mm male snap. The 2.5mm polyurethane coil insulation offers excellent coil memory. A swivel type banana jack increases coil life and prevents cord tangles. The soft, maroon woven fabric of the wrist band allows the skin to breathe and is very comfortable to wear. It uses hypoallergenic silver-plated nylon thread for conductivity and it has a maximum resistance of 160 ohms.

Meets or exceeds requirements of ANSI ESDS20.20 and ESDA Standard 1.1-2006
